### 360 VIRTUAL TOUR - INTRODUCTION

The 360 degree virtual tour is a stand-alone product, with a single one-time charge. The pricing starts at \$250 for our basic package but most parishes opt for our Standard or Professional options at \$500 and \$1000. The packages are described on our website where you will also find many 360 Tour examples: [orthodox360.com](http://orthodox360.com)

Travel expense is usually added to the cost but would be waived for the Diocese of the West.

The tours would be taken with tripod (ground level) + 20ft monopole (semi-aerial) + aerial drone (up to 400ft).

Photography done on-site usually takes between 1-3 hours, then 2-3 weeks in the office. Delivery within 1 month.

We also film and produce parish "Welcome Videos". Examples on our YouTube channel: [youtube.com/orthodoxws](http://youtube.com/orthodoxws)

### BENEFITS OF 360 TOURS BEYOND MISSIONARY PURPOSES

- ❖ Education, showing and explain the different parts of a church, including the altar (which the majority of Orthodox Christians never physically enter);
- ❖ Fundraising, to inspire donations for iconography or building expansion or renovation projects;
- ❖ Insurance purposes, to document the physical structure and material holdings in case of, God forbid, a fire, flood or some other catastrophe;
- ❖ Historical documentary use for important sites in the history of OCA and Orthodoxy in America.
- ❖ Orthodox architects, builders and iconographers use 360 tours to show their work and portfolio in a way which simple photos could never do.
- ❖ Large-scale printing: since the photography from the 360 tours is of very high quality and resolution it is perfect for print as banners for festivals, posters, framed work, postcards, etc.
- ❖ Foster greater appreciation for Orthodoxy, and hopefully a deeper longing to be in God's presence.
